This webinar will be based on the book *Using Evidence in Policy and Practice: Lessons from Africa* of which the Ian and Mine are co-editors. The book examines how governments in Africa can use evidence to improve their policies and programmes, and ultimately, to achieve positive change for their citizens. Focus of this webinar will be on a case study on the use of evaluation evidence by the Department of Basic Education in South Africa, a department which has been a pioneer of using evaluations and other evidence.*

**Prof. Ian Goldman** joined CLEAR-AA in 2018 and is also an Adjunct Professor at the Nelson Mandela School of Public Governance at the University of Cape Town.

**Mine Pabari** is currently a visiting research fellow with CLEAR-AA and the managing partner of Athari Advisory.

**Carol Nuga Deliwe** is the Chief Director responsible for Sector Planning, Monitoring, Evaluation, and Research at the Department of Basic Education in South Africa.

* This webinar is part of a series aimed at sharing findings and lessons from the book (published by Routledge, available July 2020).
